4/17/2025	4/24/2025	Douglas County PUD is looking for a list of all commercial buildings over 50,000 gross sq ft located within Douglas County. We are preparing to assist our customers with the Clean Building Performance Standard mandated by WA State as utilities are required to provide certain information to building owners. If we could get information stating the business, the owner and the gross sq feet of the building it would be helpful to us as we move forward. After speaking with the land services department we were told to submit a public records request for the information. We would appreciate any support you can provide us.

4/10/2025	4/23/2025	<p>Good Morning Carolyn: Mayor Smith told me this morning that you had requested an invoice from the Town for sewer service at the RV Park according to Ordinance 2023-851. I do realize the ordinance does state that the NCW Fairgrounds is to be billed monthly. Please consider this email as a public records request for a monthly breakdown of the number of nights per RV using the sewer hook-up facilities at the NCW Fairgrounds from January 1, 2024 - March 31, 2025. The Town will then be able to invoice the North Central Washington Fairgrounds at the stated rated of \$2.00 per night per RV. Carolyn, I think in the future this would be easier for both the Town and the Fairgrounds to submit a public records request and then bill these RV sewer charges on a quarterly or annual basis. Please let me know your thoughts on this. Thank you. Sincerely, Marsha L. Peterson Clerk-Treasurer Town of Waterville P. O. 4/24/2025	4/29/2025	Please provide budgetary records, and contracts/agreements with the state, private, and government entities that are providing cloud seeding services in Douglas County (see below RCW), also known as geo-engineering or weather modification. Please provide details regarding the chemicals/elements that are being used as outlined in these contracts/agreements. RCW 70A.10.190 Legislative declaration. The legislature finds and declares that when prolonged lack of precipitation or shortages of water supply in the state cause severe hardships affecting the health, safety, and welfare of the people of the state, a program to increase precipitation is occasionally needed for the generation of hydroelectric power, for domestic purposes, and to alleviate hardships created by the threat of forest fires and shortages of water for agriculture. Cloud seeding has been demonstrated to be such a program of weather modification with increasing scientific certainty.
